Professional Experience & Workflow

REMOTE FREELANCE PRACTICE

Graphic Designer

Collaborated on a structured freelancing venture in which my partner focused on acquiring clients and managing orders, while I took full charge of understanding project requirements, creative direction, and technical design execution.

1. Requirement & Style Research

Analyzing target audience, dimensions, brand guidelines, and visual references.

2. Layout & Iterative Crafting

Composing balanced typography, vectors, and color harmonies with client review cycles.

3. High-Fidelity Delivery

Exporting production-ready source files, print bleeds, and optimized web assets.

PROJECT 11 / PUBLISHING

Book Cover Design

Front cover, spine, and back cover layouts designed for print publication, balancing title dominance with artistic depth and tactile finish.

Publishing Art | Photoshop & Illustrator

Complete jacket packaging featuring precise spine bulk calculations and ISBN barcode placement.

PROJECT 12 / CREATIVE EDITING

Photo Manipulation & Double Exposure

Double Exposure Effects

Artistic blending of portrait silhouettes with landscape textures, urban grids, and fine organic elements using Photoshop blending modes.

Advanced Compositing

Seamless multi-image stitching with matched perspective angles, realistic atmospheric depth, and painted cast shadows.

Commercial Retouching

Frequency separation skin retouching preserving authentic pore texture alongside cinematic color grading.

DESIGN PHILOSOPHY

“Design is not just about decorating space; it is about solving visual problems with clarity, intentional restraint, and purpose. Great design turns complex concepts into unforgettable brand experiences.”

Every curve, typeface choice, and color harmony is engineered to elevate brand credibility and inspire human connection.
